

Abhiram Chilakamarri

Atlanta, GA • abhiram.chilak@gmail.com • (770) 703-0753 • abhiramchil.github.io • US Citizen

EDUCATION

Georgia Institute of Technology

Atlanta, GA

B.S./M.S. in Computer Science and Artificial Intelligence

Expected Grad: May 2028

Relevant Coursework: Object-Oriented Programming, Data Structures, Advanced Algorithms, Computer Organization, Machine Learning, Natural Language, Database Systems, Robotics, Computer Vision, Discrete Math, Combinatorics

Certifications

Amazon Web Services - AWS Cloud Practitioner

Aug 2025

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, Kotlin, SQL, HTML/CSS

Frameworks & Libraries: React, Spring Boot, Flask, PyTorch, Hugging Face Transformers, scikit-learn, Pandas, NumPy

Cloud & Databases: AWS, Azure, DynamoDB, PostgreSQL, pgvector, Firebase, Firestore

Developer Tools: Git, GitHub, GitLab, REST APIs, CI/CD, CloudWatch Logs Insights, Postman, Android Studio, MCP, RAG

EXPERIENCE

U.S. Bank

Minneapolis, MN

Software Engineer Intern

June 2026 – Aug 2026

- Engineered a **Python/PostgreSQL** repository analysis agent using vector-search to automate compliance gap detection
- Built a **pgvector-backed** semantic retrieval pipeline to match repository findings with embedded governance policies and generate source-grounded recommendations reducing manual review from **2–3 hours to 5–10 minutes**
- Trained a **scikit-learn TF-IDF classifier**, achieving **97%** precision and recall while reducing false-positive AI detections
- Architected an AI-driven banking personalization system using **Azure OpenAI, AI Search, Personalizer, and Monitor**

Delta Air Lines

Atlanta, GA

Software Engineer Intern

Jan 2026 – May 2026

- Redesigned **DynamoDB** partition/sort-key architecture in Java reducing query latency by **40%** for flight crew scheduling
- Diagnosed **400+ API failures** (10/15 per day) by testing Spring Boot microservices with Postman and querying **CloudWatch Logs Insights** to trace production root causes, resolving **10+** major Java/DynamoDB code issues
- Built and deployed an API-health **React** dashboard via CI/CD in an Agile/Scrum environment, monitoring **15 APIs**

Georgia Tech IP Crowd Lab

Atlanta, GA

Machine Learning Project Engineer

Aug 2024 – Dec 2025

- Developed a ML-powered matchmaking application using **PyTorch** to connect potential study partners at Georgia Tech
- Improved match accuracy and compatibility by **75%** in test groups using Hugging Face Transformers with pre-trained **BERT-based models** for sentiment analysis and user bias modeling
- Leveraged **Requests** and **BeautifulSoup** to web-scrape and extract data from Georgia Tech's "Reserve a Space" website

PROJECTS

SignSense, Python, OpenCV, MediaPipe, PyTorch, React

July 2026 – Current

- Built a real-time ASL recognition pipeline with **OpenCV/MediaPipe**, extracting 21 hand landmarks per frame
- Trained a PyTorch gesture classifier across **20+** ASL signs, achieving **90%+** accuracy with hand-position correction
- Engineered an **OpenCV** interface processing video at **30+** FPS with real-time landmark and confidence feedback

SalesParrot, Python, SQL, Pandas, Unipile API

May 2025 – July 2025

- Developed an AI-powered chatbot leveraging **LLMs** to automate B2B lead generation and mass outreach in New York
- Achieved a **50x** increase in outbound messaging rate through automating outreach campaigns using **Unipile API**
- Analyzed parsed business data using **SQL** and **Pandas**, and generated actionable reports to support targeted outreach

WanderSync, Java, Firebase, Kotlin, Android Studio

Aug 2024 – Dec 2024

- Built a full-stack Android app enabling collaborative travel planning with real-time itinerary editing across devices
- Integrated **Firebase Authentication** to enable role-based access for users joining and managing shared itineraries
- Implemented cross-device sync using **Firestore Listeners**, ensuring real-time updates for **100+** users in parallel sessions

LEADERSHIP

JET Atlanta, Alpharetta, GA – Branch President & Volunteer

Feb 2022 – May 2023

- Organized and led **10+ community service projects**, resulting in benefit for local charities and organizations
- Spearheaded a road cleanup campaign that mobilized **20+** volunteers and raised **\$1,500** for anti-litter and sustainability
